PROFESSIONAL SUMMARY

Developer and digital creator with experience working on full stack web projects using JavaScript, React, Next.js, Express.js, and MongoDB. I also use Lovable and Supabase to build web products and create promotional graphics, logo concepts, and videos. Seeking remote opportunities in web development and digital content creation.

SKILLS

Web development: HTML, CSS, JavaScript, React, Next.js, Node.js, Express.js, MongoDB, Supabase, Lovable

Creative tools: Canva, CapCut, AI-assisted image and video tools

Digital content: Social media graphics, promotional videos, logo concepts

Languages: French — Fluent; Wolof — Fluent; English — Working proficiency

EXPERIENCE

Independent Digital Projects — Absa Digital Agency LLC

August 2026 - Present

- Create and maintain web products.
- Review desktop and mobile interfaces and refine website content.
- Produce promotional graphics, logo concepts, and short videos.

Full stack project experience: Worked on multiple full stack projects with frontend interfaces, Express.js backends, and MongoDB databases.

SELECTED PROJECTS

Web products built with AI-assisted development in Lovable, which I guide, review, and refine.
